Career Objective

Motivated and detail-oriented Computer Science student with strong skills in Python, Machine Learning, and problem-solving. Seeking an opportunity to apply my technical knowledge in real-world applications and contribute to innovative projects in software development and AI.

Education

Sphoorthy Engineering College — Hyderabad, India
Bachelor of Technology in Computer Science Engineering — *2023 – 2027*

Vishwabharathi Junior College — Shadnagar, India
Intermediate (11th & 12th Grade) — *Completed 2023*

Omkar Sahithi Vidyalaya — Shadnagar, India
Secondary School Certificate (SSC) — *Completed 2021*

Technical Skills

Programming Languages: Python, C
Core Areas: Machine Learning, Data Analysis, Problem Solving
Libraries & Frameworks: NumPy, Pandas
Tools & Platforms: VS Code, Git, GitHub
Other: Vibe Coding, Antigravity (Python Easter Egg), Team Leadership

Projects

Heatwave Prediction System | *Python, Pandas, Machine Learning* — GitHub

- Developed a machine learning model to predict heatwave conditions using historical weather data, helping forecast extreme temperature events with improved accuracy.
- Applied data preprocessing, feature engineering, and predictive modeling techniques to build a robust and interpretable forecasting pipeline.
- Deployed the project on GitHub for public access and reproducibility.

Dakshina Voice Assistant | *Python, HTML, Automation Libraries* — GitHub

- Built a voice-controlled assistant capable of performing basic system and automation tasks through natural spoken commands.
- Integrated speech recognition and command execution features, enabling seamless user interaction for everyday computing tasks.
- Developed with Python and HTML; source code available on GitHub with active maintenance.

Position of Responsibility

Secretary — Gamers Club — Sphoorthy Engineering College
Student Leadership Role — *2023 – Present*

- Organized and managed gaming events and competitions within the college, driving student engagement and participation.
- Led team coordination and event planning activities, developing strong organizational and leadership skills.

Certifications

Python Certification — HackerRank
AI & ML Virtual Internship — AICTE (Edunet Foundation)
Android Development Virtual Internship — AICTE

Achievements & Activities

GitHub Projects & Open Source Remote

Active Developer *2023 – Present*

- Actively deployed and maintained multiple Python and ML projects on GitHub, including heatwave prediction and voice assistant systems.
- Participated in technical learning programs and virtual internships focused on AI, ML, and Android Development.
- Strong interest in AI, vibe coding, and emerging technologies with hands-on project experience.
